MIRROR, ALTA., SEPTEMBER 19, 1912.

5 CENTS PER COPY.

Sentenced For Thirty Days

On Wednesday morning last, Pascal Bruno, a Cross half-breed appeared before H. J. Raymer, J. P., on a charge of drunkenness and creating a disturbance. The summons for Bruno's arrest was issued on information laid by Sgt. McBrayne, of the R.N.W.M.P., of Stettler, and Bruno was arrested on Wednesday morning. On appearing before the J. P., he pleaded not guilty, but as he was intoxicated when he made the plea, and carried a bottle half filled with brandy, the evidence was considered overwhelming, and the prisoner was sentenced to 30 days with hard labor, at the guard room, Fort Saskatchewan.

A summons for the arrest of Paul Bruno, on the same charge, was also sworn out, but the Indian with the saintly name managed to evade the constable and is still roaming the prairie. The encampment of half-breeds that have been camping at different times around Mirror, has proven more or less of a nuisance all summer, and the stiff sentence imposed by the J. P. should have a decided moral effect on the balance of the tribe, and make them realize that lawlessness will not be tolerated in this neighborhood.

SOME PUMPKINS

Three riders, who reside six miles from Mirror, on the shore of Buffalo Lake, left on Tuesday morning for Lacombe with a quantity of vegetables, which he will exhibit at the Fall Fair. A 60-pound pumpkin is one of the exhibits, also turnips weighing 25 pounds. His entry will include all kinds of garden truck, and Mr. Rider should

have little difficulty in carrying off some of the prizes in the vegetable competition. His ability as a gardener is well known and the products from his garden patch have furnished many a meal for the residents of Mirror.

Mr. Rider will also compete at the Allix fair on Friday, Sept. 20.

THRESHING WILL START NEXT WEEK

Weather permitting several threshing outfits will commence operations on Monday of next week. The grain in this district will be practically all cut, and it only remains for the farmer to proceed with his threshing and gather in the sheaves. Hickling's, Marryat's, Estell's and Schultz's outfits expect to start the first of next week.

THROUGH WITH CUTTING FIVE WEEKS EARLIER

Jno. Stevenson, north-east of Mirror, has completed his cutting for this year and states that it is just five weeks earlier than last year, or in other words he finished reaping this year on the same day of the month, as he started the year previous. The wet weather of a few weeks ago, interfered to a great extent with harvesting, or else the work would have been finished sooner. Grain is of a better grade this year, and the yield per acre will be much larger.

BORN

CAIRNS.—On Saturday, September 14, 1912, to Mr. and Mrs. J. J. Cairns, a son. Congratulations.

EDUCATIONAL MATTERS DISCUSSED AT B. OF T.

An interesting address was delivered by Mr. Thibedeau, Inspector of public schools in Lacombe district, to the members at the Board of Trade last Tuesday evening.

In the course of his remarks, Mr. Thibedeau gave a lucid explanation of the forming of school districts, and also a solution of the difficulty which is now taking up the attention of the residents of Mirror and district. He intimated that the formation of another school district composed of the Village of Mirror and a small section of its immediate territory would weaken the district itself and also the Lamerton S. District. A more feasible plan, he said, would be to let the district remain as it is present, and instead of dividing the territory into two separate school districts, consolidate the two and erect a modern and spacious school house that will be large enough to accommodate the ever-increasing number of scholars. With a large attendance of scholars at one school it will be possible to carry on grade work and the pupils from the

Lamerton district would thus reap the advantages as well as those situated in Mirror. Under this plan, it would of course, be necessary for the Trustees to furnish a conveyance for the scholars attending from the north.

Mr. Thibedeau stated further that it would only be a matter of time when the system of Consolidated Rural Schools, which is now in force in several provinces and which is being carried on with success, would be introduced into Alberta, and he would very glad to see Mirror members to look into the future, and erect a building that could be enlarged when extra accommodation is needed.

Mr. Thibedeau stated that the change, as noted above, met with his hearty approval and that he would recommend the same to the Department of Education at once.

EVENTS AROUND TOWN AND DISTRICT

B. C. Fruit Lands For Sale

\$15 a week—easy payments—offered by P. L. Harris, of Winnipeg. Read his ad. on page 4, and then mention THE JOURNAL when you write him.

Change in Time-Keepers

D. C. Carmichael is the new time-keeper in the G. T. P. yards, and the former keeper, Geo. McMillan, goes to New Norway to act as station agent.

Work on Residence Started

The frame work on W. G. McCormack's new residence has been started and the building will proceed as fast as possible. Mr. and Mrs. McCormack have removed from Lamerton and are living in the large two-story office erected at the lumber yard, and will remain there until their home is ready for occupancy.

Falls Through Platform

Tom Tate has been confined to his bed for the past week with a bruised knee, received while unloading freight at the rear of Maurer's store last Thursday afternoon. Tom stepped on a broken board in the platform and slipped through, giving his knee a nasty scrape.

The Journal for a Quarter

We will send THE JOURNAL to any address in Canada from now until the 1st of January, 1913, for the sum of twenty-five cents. Send it to your friends; it will give them the news of the town.

Misunderstandings

Hughie Steele, the young son of J. and Mrs. Steele, met with an accident that might have resulted seriously. It seems that he cut two shells, poured the powder into a heap and then applied a match. The explosion that followed flared into the lad's face, singeing it considerably. Necessary remedies were applied and the blisters are healing up.

Mistakes Happen Sometimes

Readers of these as well as other columns sometimes make sport of errors, typographical or otherwise, that inadvertently creep into the make-up of a page, and wonder how they happen. When it is considered that there are no less than several thousand pieces, is there any wonder that a letter is sometimes misplaced or left out entirely?

Loose House and Furniture

Art. Price, who has been a resident of Mirror for several months received the distressing news last week of the loss of his house and furniture at Funk, Nebraska. The household effects were all packed ready for shipment to Mirror, and Mrs. Price and three children were preparing to leave Funk shortly for Mirror. Loss is partly covered by insurance.

A Family Re-Union

H. J. Raymer expects to leave Friday (tomorrow) morning for Calgary, where a reunion of five of the Raymer brothers will take place. The members in the party will be W. J. and Mrs. Raymer, of Chicago, Ill.; A. C. and Mrs. Raymer, and their daughter, Mrs. Geo. Saunders and baby, of St. Paul, Minn.; H. W. and G. R. Raymer, of Kelowna, B.C. It is thirty

years since the five brothers were all together at one time, and the gathering should be a pleasant one.

Manager Lumber Co. Leaving

Another change in the management of one of the local lumber yards will take place in a few days, as C. F. Bentley, who has been directing the affairs of the Imperial Lumber Co. in Mirror, has severed his connections with that firm. Mr. Bentley will go to Edmonton, where he will enter the lumber business with his father, N. N. Bentley. The position of secretary-treasurer of town is vacant on account of Mr. Bentley's departure.

Personal Paragraphs

Mrs. C. F. Bentley and sons, Newcomb and Jack, left on Wednesday morning for Edmonton.

W. C. Gardiner has been transferred from the Bank of Commerce here, to McLeod, Alta., and left this (Thursday) morning to commence his duties there. Mr. Gardiner has been in the local branch for nearly a year and his many friends, while sorry to see him leave, will wish him rapid advancement.

T. G. Cook, of Wainwright, is a business visitor in town.

N. N. Bentley, of Edmonton, spent last Thursday evening with his son, C. F.

Mr. McElroy, representing the Camrose Wine & Spirits

Shortage of Mechanics And Laborers

During the past week or two contractors have experienced a great deal of difficulty in getting enough help to carry on their work, and the supply of teamsters and carpenter mechanics, etc., is not equal to the demand. There is considerable work to be done before the freeze-up, both on buildings now in course of erection and also the grading on the streets.

Co., was in town on Tuesday.

Mr. Thibedeau, of Lacombe, Inspector, paid the Lamerton school a regular visit this week.

J. N. and Mrs. Mitchell were in Edmonton last Monday and Tuesday.

Mrs. C. J. Higgins, of Vancouver, B.C., is visiting with her sister, Mrs. N. H. G. Rathvon, and may remain for several months.

Mrs. A. L. Barton leaves on Saturday morning for Ledgeswood, N. Dak., and will visit for some time.

Miss Olive Wilson has taken a position in the post office and A. Thomas' general store.

D. A. Duitman, of Bawlf, Alta., spent Wednesday with his sons, J. H. and Wayne.

We regret to hear that Mrs. Geo. B. Williams, who recently moved to Calgary, has been laid up with inflammatory rheumatism, but trust she will soon be convalescent.

MIRROIR, ALTA., SEPT. 19, 1912

MOVING THE GRAIN CROPWith the western harvest
well advanced, the various gov-
ernment departments are doing
everything possible to facilitate
a speedy movement of the crop
to prevent a repetition of the
grain blockade of a year ago.The railway commission, the
grain commission, the trade and
commerce department, the rail-
way department, and the trans-
continental commission have
but one problem they are wrest-
ling with today, and that is the
movement of the western wheat.
Eastern business men also re-
alize the necessity of moving
quickly the crop, and the Manu-
facturers' Association has sentout circulars to its members
asking that they facilitate in
the car movement by loading
and unloading as expeditiously
as possible. The government
is hopeful that there will be no
repetition of the blockade. Of-
ficial figures secured from the
railway commission show that
the railways have made re-
markable preparations and their
claims that they are doing every-
thing possible is justified.The three roads, the C. P. R.,
C. N. R. and G. T. P., have from
twenty to twenty-two thousand
more cars than last year to
handle the crop, and have in-
creased their motive power by
500 engines. No less than seven-
teen million dollars has been
expended in betterment, with
intent solely to expedite the
movement of grain.**MOOSE PLENTIFUL IN FRAZER
RIVER VALLEY**Edmonton, Alta., Sept. 11.—
John Eggers, a trapper and
homesteader in the Fraser River
valley, who is in Edmonton for his
winter supplies, reports that
there are 25 moose to the square
mile in the district, also that
deer are numerous. He made
a large fur catch last season,
disposing of the pelts in this
city at a good price. Eggers
paddled a dug-out canoe from
Fort George to Tete-Juan Cache
300 miles without mishap.
There are many rapids in the
Fraser river, making the journey
more or less hazardous, but many
settlers, he says, are go-
ing down the swift stream in
small boats and scows, taking
household goods and farm im-
plements. Six hundred men
and women have gone into the
district in the last ninety days.
The overland route to Fort
George is a long and difficult
one. It is used chiefly by trap-
pers, tourists and prospectors
in search of big game, scenery
and minerals.**MILLING CO. GUILTY**During last week the Ellison
Milling Co., of Lethbridge, Alta.,
were convicted, under the Dom-
inion Seed Control Act, of hav-
ing in the season of 1912, sold
alfalfa seed containing dodder,
a noxious weed under the above
act. This case is of special in-
terest to farmers and seed mer-
chants in that it is the first
prosecution made in Alberta
under the Act. It is, however,
the intention of the Dominion
Seed Branch hereafter to rig-
idly enforce the act in the Wes-
tern Provinces. In consequence
merchants and others handling
seed should see that all seed of-
fered for sale complies with the
provisions of the act.**TWO SIDES TO A STORY**The other day a man walked
into a local store to buy a saw.
He made his choice and asked
the price."One dollar and sixty-five
cents," said the dealer.
"Good gracious!" said the
man, "I can get the same saw
at Eaton's for \$1.27.""That's less than it cost me,
but I'll sell it on the same terms
as the mail order house. Just
the same," said the dealer."All right," said the customer,
"you can send it along and
charge it to my account.""Not on your life," replied the
dealer. "No charge accounts;
you can't do business with Eaton's
that way. Fork over the
cash."The customer complied.
"Now two cents for postage
and three cents for a money
order.""What—?"
"Certainly, you have to send
a letter and a money order to a
mail order house you know."

The customer, inwardly mry-

ing, kept to the agreement and
paid the nickel."Now thirty-five cents for ex-
pression," he said.
"Well, I'll be ——" he said,
but paid it, saying, "Now hand
me the saw and I'll take it home
and be through with this fool-
ery.""Hand it to you. Where do
you think you are? You're in
Mirror and I'm in Winnipeg
and you'll have to wait a week
for that saw."Whereupon the dealer hung
up the saw and put the money
in the cash drawer, saying:
"That makes \$1.67; it has cost
you two cents more and taken
you a week longer to get it
than if you had paid my price
in the first place."**"THEY CAN'T BE DID"**Where can a man buy a cap
for his kneeOr a key for a lock of his hair?
Can his eyes be called an acad-
emy?Because there are pupils there?
In the crown of his head what
gems are set,Who travels the bridge of his
nose?Can he use when shingling the
roof of his mouth,The nails on the ends of his
toes?Can the crook of his elbow be
sent to jail?

And if so, what did it do?

How does he sharpen his shoul-
der blade?

I'll be hanged if I know, do you?

One Dollar Down

AND

One Dollar Per WeekFor five years pays for an improved fruit tract in B. C. At the end of
the five years it should bring you in \$500 to \$1,500 per year.**Actual Government Reports for the Kootenay Lake
District Show Greater Results from ONE ACRE**There is hardly a man, woman or child in the United States or Canada
who cannot afford **One Dollar Per Week** to establish a home in an ideal
country like the famous Kootenay Lake District. In five years a clear
title to one acre of improved bearing orchard is delivered to you or
your heirs.I have set aside five hundred acres of choice fruit land, and as soon as
I have sold that out your opportunity is lost. I want every man, woman,
or child who reads this ad to send in their dollar at once and secure
an acre tract on the above terms. Write for full particulars of the
best offer ever made to those who wish a home in an ideal climate,
where you will have honest and congenial neighbors.I sell five, ten and twenty acre tracts on very easy monthly payments.
Also give a big discount for cash. Join one of my monthly excursions
and see the country for yourself. July 20 and August 30 are my next
two dates. A big bunch went up June 27—all bought from me except
two. Pretty good evidence that what I am offering is right, isn't it?
I have sold to several hundred people since January 1st. I live there
myself. Have my own fruit ranch on the shores of the beautiful Koot-
enay Lake. I want you for my neighbor in B. C., and I am sure you will
want to be when you see the country. My new way to grow apples
will interest you. Also the famous Kootenay Magazine tells all about
the fruit and other industries of Southern B. C. Subscription price
\$2.50 per year, or sent free for year on receipt of twenty names of
friends or relatives who might be interested in B. C. fruit lands. My
booklet, "Homesteading," tells you how I spent five years in the West
looking for what we all want—an ideal location for a home. It's free.
Write to-day, giving name of reliable reference, your nationality, and
amount you wish to buy.**F. L. HARRIS**

WINNIPEG

FOR THE FARMERS

The C. P. R. Agricultural College
Train, and the Work it
Accomplished

On Saturday evening, June 23, the Agricultural College Special, run by the Canadian Pacific Railway, visited the very successful tour of the province of Manitoba. The train was on the road for five days, and in that time covered all Manitoba territory in the Canadian Pacific Railway. 87 different points were visited, 1300 addresses given to 22,900 people, which included 393 men, 724 women and 5023 of the senior classes of the schools. The following is a brief outline of the work done on the train.

When the train arrived at each stopping place, the car containing the stock, which consisted of three pure bred Holsteins cows, one pure bred Hereford fat steer, and four types of the best quality of work horses and brood mares, was placed at the unloading platform. The first talk on stock, which particularly great interest was taken by the farmers, was given by Professor Peters and Mr. Jones, his assistant. The subjects dealt with in horses were the best types to raise in the province, the highest price, and the best type for the City market, it being shown that if a farmer went in for raising this class of stock, there would be enough smaller horses come even after making his bellies, to supply horses for the City market, for the farm, and the others would bring top prices in the City market.

Particular emphasis was laid on raising large heavy horses for the City market, it being shown that if a farmer went in for raising this class of stock, there would be enough smaller horses come even after making his bellies, to supply horses for the City market, for the farm, and the others would bring top prices in the City market. The trouble which was experienced last year in disease in the young cattle, is to thoroughly by Professor Peters, and the best means of stamping out this disease was explained. Fortunately this year the death rate of cattle when very young has fallen off, but it is still prevalent, and the farmers were urged to try the best methods of handling the young cattle.

The next stock talk on the program was milk cows. The three-orchestral Holsteins were recommended as a particularly good type for raising on Manitoba farms for dairymen purposes, and the Ayrshire was also recommended. The general use of the Jersey was discouraged owing to its inability to stand the rough conditions in the winter on a Manitoba farm (where milk production) but what would be called a "weird" in a herd, that is, a turned her foot into her instead of milk, would not produce in a herd more than 5000 lbs. of milk, while a cow after paying for her keep and other expenses, is still taking care of the milk, must at least produce 6000 lbs. of milk. The point made in this connection was that the selection of breed should not be made, but also each individual cow had to be selected. The good milking Holstein is often found a good profit, should at least give eight or nine thousand pounds of milk a year, a prize cow at Dominion City last year, produced 18,000 lbs. of milk, getting to the owner a clear profit of \$205.00. In best cattle, the Holsteins were the best, and directly opposite to the Holsteins cows. This is all the more to be noted, as the milk was turned into beef production. The raising of what is known as the dual purpose animal was discouraged, it being considered better to go in for beef or beef or both, than to raise a dual purpose animal. The milk cows intended only for the raising of beef.

A short talk was also given on hog production, and the raising of sheep. After the stock talk, the Principal of the Brandon Normal School, gave the most important and practical education to the Public schools, and the most important and practical training of our teachers in agriculture, and they in their turn taking up more of the talk, teaching that subject in the rural districts, and also in small plots for agricultural purposes being attached to each school.

The question of consolidated schools was also gone into by Mr. Hayes and strongly recommended for most districts. Professor Lees also gave an interesting lecture on the identification and eradication of weeds. Farmers, who were at the meetings last year came in bringing with them weeds which they found in their fields and which they were unable to identify, asked their names and the best way of destroying them. Mr. Lees dealt particularly with the destruction of the Sow Thistle, the Canada Thistle, Mustard, Wild Oats, and French Weed. The farmers in the Eastern and Southern portions of the Province were apparently anxious to find out the best means of destroying weeds, and the farmers to the West and North, where the weeds as yet have not made the same progress, were anxious for their identification. Some farmers did not know the Sow Thistle, although Mr. Lees was able to find it on their farms. The farmers were warned against this weed in particular, it being really the only weed in Manitoba which takes complete possession of the land, not allowing any grain to grow with it. It is also the only weed which will attack the prairie.

Mr. Henderson gave a talk on fodder crops, particularly on the planting and the use of corn and also showed how a crop of corn could be raised and do as much good as wheat, without having to give the farmer a valuable crop where otherwise his land would be lying idle. Mr. Henderson also spoke on the raising of timothy clover and alfalfa, showing farmers to be particularly careful to see that the seed was very thoroughly cultivated and inoculated before sowing alfalfa seed.

Principal Black closed the meeting for the men by giving a strong practical talk on the general successful working of a Manitoba farm, and on the Agricultural College work, and on the necessity for every young man and woman, who intended to follow farming as a vocation, taking course in the Agricultural College; that agriculture had to be handled in a scientific way the same, if not more so, than any other business.

The women's part of the program was first taken by Mrs. Salisbury, who gave a very useful and instructive talk on home nursing, sanitary conditions in the home, ventilation, etc. Professor Broderick then spoke to the women on horticulture and the beautifying of the farm home, the best way of raising house and garden plants, ornamental shrubbery, planting, laying out of lawns, etc. Professor Hesser gave a very interesting talk on poultry-raising and egg production, showing the best way to raise poultry for the market, and the correct way for handling them in order to produce the greatest and best quality of eggs, and telling the farmer's wives how to take care of their eggs before marketing them. In such a way that the number of spoiled eggs would be reduced to a minimum. He also mentioned the best types of hens for egg production, the Hatter, Plymouth Rock being the favorite, although the raising of most other breeds was not discouraged. The poultry on the farm was shown to be one branch of farm work which could be made the most profitable as a side line with the least outlay.

Professors Mitchell and Crowe took the time of dairymen. A very great interest was manifested in this work by all the women and a great many of the men. There has been so much loss to the farmers in the loss of their milk, that they have been making the best grade of butter, and having their butter uniform. The care of the milk and cream was gone into thoroughly; the best sources for having cream, and the making of butter were shown.

The senior class of the school at Brandon, every point came over to the train in a body and were addressed by every point. Principal H. H. Professor Lee or J. J. Golden on the subject of the Canadian Pacific Railway and in killing insects which were harmful to agriculture, the most of getting sufficient trees around the farm so that the birds would stay in the fields. It was for the children were educated along these lines, the great destruction of birds which now takes place would be stopped. Many birds which the average child thinks to be harmful, such as hawks, were shown to be really useful on the farm. The children then had a talk on the identification of birds, and at the end of the simple way the best methods of getting rid of them.

The meetings were opened with a short address, explaining to the farmers why the Canadian Pacific Railway Co. and the Agricultural College staff thought it was so important to run the train, the interest the Canadian Pacific Railway took in the farmers who were living on the line and the desire for better farming, and the most important and practical education to the Public schools, and the most important and practical training of our teachers in agriculture, and they in their turn taking up more of the talk, teaching that subject in the rural districts, and also in small plots for agricultural purposes being attached to each school.

school. The question of consolidated schools was also gone into by Mr. Hayes and strongly recommended for most districts.

Professor Lees also gave an interesting lecture on the identification and eradication of weeds. Farmers, who were at the meetings last year came in bringing with them weeds which they found in their fields and which they were unable to identify, asked their names and the best way of destroying them.

Mr. Lees dealt particularly with the destruction of the Sow Thistle, the Canada Thistle, Mustard, Wild Oats, and French Weed. The farmers in the Eastern and Southern portions of the Province were apparently anxious to find out the best means of destroying weeds, and the farmers to the West and North, where the weeds as yet have not made the same progress, were anxious for their identification.

Some farmers did not know the Sow Thistle, although Mr. Lees was able to find it on their farms. The farmers were warned against this weed in particular, it being really the only weed in Manitoba which takes complete possession of the land, not allowing any grain to grow with it. It is also the only weed which will attack the prairie.

Mr. Henderson gave a talk on fodder crops, particularly on the planting and the use of corn and also showed how a crop of corn could be raised and do as much good as wheat, without having to give the farmer a valuable crop where otherwise his land would be lying idle.

Mr. Henderson also spoke on the raising of timothy clover and alfalfa, showing farmers to be particularly careful to see that the seed was very thoroughly cultivated and inoculated before sowing alfalfa seed.

Principal Black closed the meeting for the men by giving a strong practical talk on the general successful working of a Manitoba farm, and on the Agricultural College work, and on the necessity for every young man and woman, who intended to follow farming as a vocation, taking course in the Agricultural College;

that agriculture had to be handled in a scientific way the same, if not more so, than any other business.

The women's part of the program was first taken by Mrs. Salisbury, who gave a very useful and instructive talk on home nursing, sanitary conditions in the home, ventilation, etc. Professor Broderick then spoke to the women on horticulture and the beautifying of the farm home, the best way of raising house and garden plants, ornamental shrubbery, planting, laying out of lawns, etc.

Professor Hesser gave a very interesting talk on poultry-raising and egg production, showing the best way to raise poultry for the market, and the correct way for handling them in order to produce the greatest and best quality of eggs, and telling the farmer's wives how to take care of their eggs before marketing them. In such a way that the number of spoiled eggs would be reduced to a minimum.

He also mentioned the best types of hens for egg production, the Hatter, Plymouth Rock being the favorite, although the raising of most other breeds was not discouraged. The poultry on the farm was shown to be one branch of farm work which could be made the most profitable as a side line with the least outlay.

Professors Mitchell and Crowe took the time of dairymen. A very great interest was manifested in this work by all the women and a great many of the men. There has been so much loss to the farmers in the loss of their milk, that they have been making the best grade of butter, and having their butter uniform.

The care of the milk and cream was gone into thoroughly; the best sources for having cream, and the making of butter were shown. The senior class of the school at Brandon, every point came over to the train in a body and were addressed by every point.

Principal H. H. Professor Lee or J. J. Golden on the subject of the Canadian Pacific Railway and in killing insects which were harmful to agriculture, the most of getting sufficient trees around the farm so that the birds would stay in the fields.

It was for the children were educated along these lines, the great destruction of birds which now takes place would be stopped. Many birds which the average child thinks to be harmful, such as hawks, were shown to be really useful on the farm.

The children then had a talk on the identification of birds, and at the end of the simple way the best methods of getting rid of them.

The meetings were opened with a short address, explaining to the farmers why the Canadian Pacific Railway Co. and the Agricultural College staff thought it was so important to run the train, the interest the Canadian Pacific Railway took in the farmers who were living on the line and the desire for better farming, and the most important and practical education to the Public schools, and the most important and practical training of our teachers in agriculture, and they in their turn taking up more of the talk, teaching that subject in the rural districts, and also in small plots for agricultural purposes being attached to each school.

LESS TIME IN THE KITCHEN

MORE TIME IN THE FRONT ROOM

That's your reward if you let MOONEY'S BISCUITS take the place of the bread and biscuits you bake yourself.

You'll find MOONEY'S a delightful substitute for your own best efforts—the family will like them. Because

MOONEY'S PERFECTION SODA BISCUITS

come to you straight from the oven in the big Winnipeg factory.

They have that freshness and crispness only to be found in a newly made biscuit. No other biscuit can come to your table as fresh from the oven as MOONEY'S.

Get the big package or the sealed tin—
both of them damp proof, dust proof,
dirt proof—and

"LET MOONEY DO IT"

You may be paid \$50 in cash for improving your walk like this

108 Canadian farmers will receive cash prizes (twelve in each Province) in our big

1912 FARMERS' PRIZE CONTEST

WE held a contest last year in which 36 prizes were offered. This year there will be three times as many prizes (108) and therefore three times as many chances for you to win a prize. You do not have to use a large quantity of cement to win a prize. Many of last year's prize-winners used comparatively little cement.

THE contest is divided into three classes and only one prize is awarded in each class. The prizes will be as follows:—
First Prize: \$500 in cash.
Second Prize: \$250 in cash.
Third Prize: \$100 in cash.
The prizes will be awarded to the winners of the contest. The contest will be held in the month of June. The contest will be held in the month of June. The contest will be held in the month of June.

NOTICE

Local Improvement District No. 21-R-4

NOTICE is hereby given that all persons having claims against Local Improvement District No. 21-R-4, are required to send particulars of such claim to N. A. Donaldson, at Manford P. O., the Secretary of said district, before the 30th day of November, 1912; and that any person who fails to do so shall be deemed to have waived his right to recover therefrom said District or any other District that may be liable for the liabilities thereof.

Dated at Manford this Fifth day of September, 1912. N. A. DONALDSON, Sec.-Treas. L.I.D. 21-R-4.

BARTLEY - ROBERTSON WEDDING

A very pretty wedding took place Friday, Sept. 6th, at the home of Mr. and Mrs. Andrew Niven, 1801 Park Road, Calgary, Alta., when Emma, second daughter of Mr. and Mrs. R. H. Robertson, of Brownsville, Oregon, was united in holy bonds of matrimony to Mr. George Herbert Bartley, of Mirror, Alta. The drawing room was tastefully decorated with sweet peas, asters, carnations and ferns. The bride entered the drawing room in the arm of her brother-in-law, Mr. Andrew Niven, who gave her away. She wore a dainty gown of white silk, mull, hand embroidered with little pink roses, and was attended by Miss Francis Smith, of Mossleigh, Alta., who wore a pretty gown of grey mull. The groom was attended by Mr. Earl Morris, of Lakeside, Alta. The groom's gift to the bride was a beautiful pearl necklace and sunburst, and to the bridesmaid a pearl stick pin. The matron of honor, Mrs. Andrew Niven, sister of the bride, wore a charming gown of white satin with pearl trimming. The service was followed by a wedding breakfast, the table being decorated with carnations and asters, centered by the wedding cake trimmed with smilax. After the wedding breakfast, Mr. and Mrs. Bartley left for the C. P. R. depot, going to Edmonton, Winnipeg and a short visit with relatives at Wattaview, Man. The bride's going away gown was a smart navy blue tailored suit and white felt hat. The ceremony was performed by Rev. W. Wilkin, of Victoria Church, Calgary. The gifts were many and costly.

The happy couple arrived in Mirror last Monday evening, and will reside in their new home on Carroll avenue, north. Mr. and Mrs. Bartley have the heartiest wishes of a large circle of friends for a long and happy journey through life.

LAMERTON S. D. No. 492

The attendance for August was very good. This month the attendance is not quite so good, owing to the bad weather during the first part. During September a number of marks have been awarded in all subjects in grades III, IV and V. All who were absent did not obtain marks for those days, so that it is difficult to make a comparison. The following represents the number of marks obtained:

Grade 3—Dorothy Dowswell, 50; Eunice Cook, 50.
Grade 4—Vera Steele, 140; Lillian Pringle, 114; Ross Steele, 108; Roy Merkle, 25; Milton Merkle, 5.

Grade 5—Eddie Kudle, 169; Dan Clarke, 158; John Clarke, 125; Gordon Tulloch, 127; Elyse Tulloch, 110; Myrtle Jewell, 54.

School hours are now from 9-12 and 1-3-30.

C. C. PORTER, Teacher.

METHODIST CHURCH

Service on Sunday, Sept. 22, at 11 a. m. Subject, "Biblical Boldness."

Singing by the choir. Sunday School services one hour before the regular church service. All welcome.

Rev. H. Brooke, Pastor.

GENERAL NEWS

Ten thousand sheep, the largest flock ever moved together, are now en route from Montana to Southern Alberta. The animals are travelling by road under charge of an experienced squad of herdsmen.

The town of Frank, B. C., which is at the base of Turtle mountain and which was partially wiped out by landslide in 1904, causing the death of seventy people has had another scare. The citizens are now preparing to move to a safe site, two miles distant.

CANADIANS DEBARRED

Canadians are debarred from competing for the prize of \$45,000 for the best five bushels of wheat shown at the Northwestern league fair. When announcement was made of the prize being given, a number of Canadian farmers sent forestry blanks. Replies were sent to them saying that Canadians would not be allowed to compete, and the States eligible are Montana, North and South Dakota, Washington, Idaho and Oregon.
